

# ELYPLAST®

**ELYPLAST GRP SHEETS: THE BEST ALTERNATIVE TO METAL SLABS FOR ROOFING.**

Elyplast GRP sheets are the ideal solution for roofing, thanks to their good mechanical resistance, durability, lightness and ease of workability.

Elyplast GRP opaque sheets are widely used for industrial as for agricultural buildings as an alternative to concrete and metal slabs thanks to their extreme ease of handling and resistance to corrosive agents.

GRP is an interesting alternative to metal for the following reasons:

- **NO RUST**
- **BETTER RESISTANCE TO ACID**
- **LIGHTER WEIGHT**
- **LOWER NOISE**
- **DURABLE AND LONG LIFESPAN**

Elyplast opaque sheets are available in many colours and are UV protected.
